

SofPort[®] AO

Advanced Optics Lens with Violet Shield™ Technology

ABERRATION-FREE, ASPHERIC SILICONE INTRAOCULAR LENS

OPTIC:

- Latest-generation silicone
- Absorbs ultraviolet and high-energy violet light
- Refractive index: 1.43
- 360° anterior/posterior square edge
- 6.0 mm optic body
- Biconvex (1.3:1) design

HAPTICS:

- Extruded violet PMMA
- Modified C loop
- 5° angulation
- 13.0 mm overall length

DIOPTERS:

- 0 - 4.0 D in 1-D increments
- 5.0 - 30.0 D in 0.5-D increments
- 31.0 - 34.0 D in 1-D increments

LENS CONSTANTS:

	Applanation A-scan	Immersion A-scan or IOLMaster [®]
A-constant*	118.0	118.7
ACD*	4.97	5.40
Surgeon Factor*	1.22	1.62

* A-Constant, ACD and Surgeon Factor are estimates only. It is recommended that each surgeon develop his or her own values.

Violet Shield™
 Advanced Optics Aspheric Lens

Start a resolution revolution with the Bausch & Lomb SofPort® Advanced Optics Aspheric Lens System.

CATARACT SURGICAL PRODUCTS

As a global leader in eye care, Bausch & Lomb is dedicated to perfecting vision and enhancing lives through innovative technology and design. To this end, we provide ophthalmic surgeons with a full array of products, including support for safe, minimally invasive cataract surgery.

IOL SYSTEMS

A wide range of advanced IOLs and inserter technologies including the SofPort AO Lens with Violet Shield Technology

LENS DELIVERY SYSTEM

The revolutionary Bausch & Lomb Easy-Load Lens Delivery System allows you to load the lens into the inserter without any physical contact with the lens, setting a new standard for ease of use that translates into reduced surgical times and more predictable, reliable lens delivery

VISCOELASTICS

A choice of viscoelastic products that deliver the right viscosity and clarity to satisfy different procedural demands, including Amvisc® Plus, Amvisc® and Ocucoat®

OPHTHALMIC INSTRUMENTS

The Storz® brand of precision-engineered microsurgical instruments, diamond knives and disposable surgical products designed to serve the needs of every surgeon for every patient

MICROSURGICAL SYSTEMS

When your technique meets advanced technology. The Millennium™ System delivers control through technological advancements in pump design and dual linear control of both aspiration and phaco power
